# Description of backup windows and dialog boxes

You can view the list of backups from the backup page in Unified Manager. You can view the backup name, size, and creation time for the backups listed in this page. You can modify the database backup settings from the Database Backup Settings page.

## Database Backup page

The Database Backup page displays a list of backups created by Unified Manager and provides information about the backup name, size, creation time, and schedule.

You must have the Application Administrator or Storage Administrator role.

### Command buttons

- **Actions**

  Displays the Backup Settings dialog box, which enables you to specify a backup path, retention count, and backup schedule.

### List View

The list view displays, in tabular format, information about the backups created by Unified Manager. You can use the column filters to customize the data that is displayed.

- **Name**

  Displays the name of the selected backup.

- **Size**

  Displays the size of the selected backup.

- **Creation Time**

  Displays the creation date and time of the selected backup.

- **Schedule**

  Displays the status of the backup operation. Also indicates whether it is a scheduled backup or not.

## Backup Settings dialog box

You can use the Backup Settings dialog box to specify a backup path and retention count and to enable a backup schedule for a selected Unified Manager instance.

You can change the following database backup settings:

- **Path**

Specifies the path to the location where you store the backup files. The following table specifies the backup path format, and default locations, for different operating systems:

| Host operating system | Backup path format |
|---|---|
| Virtual appliance | `/opt/netapp/data/ocum-backup` |
| Red Hat Enterprise Linux or CentOS | `/data/ocum-backup` |
| Microsoft Windows | `C:\ProgramData\NetApp\OnCommandAppData\ocum\backup\` |

- **Retention Count**

  Specifies the maximum number of backups to be retained by Unified Manager. The default value is ten.

- **Scheduled Daily**

  Specifies the daily backup schedule with the time.

- **Scheduled Weekly**

  Specifies the weekly backup schedule with the day and time.

- **None**

  Specifies that no backups will be created.

## Command buttons

- **Apply**

  Saves the backup file and closes the dialog box. Unified Manager saves the backup file in the following format: `um_um_version_backup_os_timestamp.7z`.
