Description of user access windows and dialog boxes

Based on the RBAC settings, you can add users from the Users page and assign appropriate roles to those users to access and monitor your clusters.

Users page

The Users page displays a list of your users and groups, and provides information such as the name, type of user, and email address. You can also use this page to perform tasks such as adding, editing, deleting, and testing users.

Command buttons

The command buttons enable you to perform the following tasks for selected users:

- **Add**

Displays the Add User dialog box, which enables you to add a local user, a remote user, a remote group, or a database user.

You can add remote users or groups only if your authentication server is enabled and configured.

- **Edit**

Displays the Edit User dialog box, which enables you to edit the settings for the selected user.

- **Delete**

Deletes the selected users from the management server database.

- **Test**

Enables you to validate whether a remote user or group is present in the authentication server.

You can perform this task only if your authentication server is enabled and configured.

List view

The List view displays, in tabular format, information about the users that are created. You can use the column filters to customize the data that is displayed.

- **Name**

Displays the name of the user or group.

- **Type**

Displays the type of user: Local User, Remote User, Remote Group, Database User, or Maintenance User.

- **Email**

Displays the email address of the user.

- **Role**

Displays the type of role that is assigned to the user: Operator, Storage Administrator, Application Administrator, Integration Schema, or Report Schema.

Add User dialog box

You can create local users or database users, or add remote users or remote groups, and assign roles so that these users can manage storage objects and data using Unified Manager.

You can add a user by completing the following fields:

- **Type**

Enables you to specify the type of user you want to create.

- **Name**

Enables you to specify a user name that a user can use to log in to Unified Manager.

- **Password**

Enables you to specify a password for the specified user name. This field is displayed only when you are adding a local user or a database user.

- **Confirm Password**

Enables you to reenter your password to ensure the accuracy of what you entered in the Password field. This field is displayed only when you are adding a local user or a database user.

- **Email**

Enables you to specify an email address for the user; the email address specified must be unique to the user name. This field is displayed only when you are adding a remote user or a local user.

- **Role**

Enables you to assign a role to the user and defines the scope of activities that the user can perform. The role can be Application Administrator, Storage Administrator, Operator, Integration Schema, or Report Schema.

Command buttons

The command buttons enable you to perform the following tasks:

- **Add**

Adds the user and closes the Add User dialog box.

- **Cancel**

Cancels the changes and closes the Add User dialog box.

Edit User dialog box

The Edit User dialog box enables you to edit only certain settings, depending on the selected user.

Details

The Details area enables you to edit the following information about a selected user:

- **Type**

This field cannot be edited.

- **Name**

This field cannot be edited.

- **Password**

Enables you to edit the password when the selected user is a database user.

- **Confirm Password**

Enables you to edit the confirmed password when the selected user is a database user.

- **Email**

Enables you to edit the email address of the selected user. This field can be edited when the selected user is a local user, LDAP user, or maintenance user.

- **Role**

Enables you to edit the role that is assigned to the user. This field can be edited when the selected user is a local user, remote user, or remote group.

Command buttons

The command buttons enable you to perform the following tasks:

- **Save**

Saves the changes and closes the Edit User dialog box.

- **Cancel**

Cancels the changes and closes the Edit User dialog box.
