## What's new

Learn what's new in BlueXP migration reports.

### **13 November 2023**

You can now create reports for volumes that use the SMB/CIFS protocol.

### **03 September 2023**

The updated BlueXP migration reports service provides updates to the report data. Reports now include allocated capacity.

### **02 June 2023**

With the new BlueXP migration reports service, you can quickly identify the number of files, directories, symbolic links, hard links, depth and breadth of file system trees, largest files, and more in your storage landscape.

With this information, you will know ahead that the process you want to use can handle your inventory efficiently and successfully.
