Managing export policy rules

Modifying an export policy rule

You can modify the export policy rule for a volume as needed.

Steps

1. Click the volume name, and then select **Export policy**.
2. To change an existing export policy rule, modify the following fields as necessary:
 - **Allowed client**
 - **Access type**
3. Click **Save changes**.

Creating additional export policy rules

You can create additional export policy rules to enable flexible client access. For example, you can specify that a given IP range should have only read-only access to a volume.

Steps

1. Click the volume name, and then select **Export policy**.
2. Click **+ Add export policy rule**.
3. Set values for the following fields:
 - **Allowed client**
 - **Access type**
4. Click **Save changes**.

Deleting export policy rules

You can delete export policy rules that are no longer needed.

Steps

1. Click the volume name, and then select **Export policy**.
2. Click **X** for the policy rule that you want to delete.

Rule index	Allowed clients <small>Required</small>	Access	Protocol	
Rule-2	10.10.0.0/16	Read & Write Read only	NFSv3	X

3. Click **Save changes**.
