# Generate reports

If you have a Premium license, you can generate several types of reports that provide details about the current status of your converged infrastructure: an inventory report, a health report, an assessment report, a deployment validation report for partners, and more.

## Steps

1. Click **Reports**.
2. Select a report and click **Generate**.
3. Choose your options for the report:
  - a. Select a converged infrastructure.
  - b. Optionally change from the most recent data collection to a previous one.
  - c. Choose how you want to view the report: in your browser, as a downloaded PDF, or via email.

## Result

Converged Systems Advisor generates the report.
