Setting up a cluster with Element storage nodes

You can set up a cluster with storage nodes and manage it using Element software after you install and cable nodes in a rack unit and power them on. You can then install and configure additional components in your storage system.

Steps

1. [Configure a storage node](#)
2. [Create a storage cluster](#)
3. [Log in to the Element software user interface](#)
4. [Add drives to the cluster](#)
5. [Determine which SolidFire components to install](#)
6. [Set up a management node](#)
7. [Configure Fully Qualified Domain Name web UI access](#)
