# Volume Transfer Status (Historical) report customizations

You can customize the Volume Transfer Status (Historical) report to view and analyze information about volume transfers at specific time intervals. You can use filters to view volume transfer details between two dates.

## Customizing the Volume Transfer Status (Historical) report schedules

You can customize the schedules for the Volume Transfer Status (Historical) report to view the volume details based on different schedules. You can view, modify, or delete existing report schedules, and add new schedules for your reports.

### About this task

You can also perform this task by going to the Reports page and clicking **Run Report** for the appropriate report.

### Steps

1. On the **Volume Transfer Status (Historical)** report page, click **Manage Report Schedules**.
2. In the **Manage Report Schedules** dialog box, enter specific details such as recipient schedule name, email address, report format, frequency, and the reports.
3. Select **Inventory** as the Report Category.
4. Click **Save and Close**.

The Volume Transfer Status (Historical) report is automatically sent by email to one or more recipients as per the schedule.

## Customizing the Volume Transfer Status (Historical) report to view volumes at specific time intervals

You can customize the Volume Transfer Status (Historical) report to view the volume details at specific time intervals.

### About this task

You can also perform this task by going to the Reports page and clicking **Run Report** for the appropriate report.

### Steps

1. Remove grouping by cluster:
  - a. Click in the column that you want to ungroup.

b. Click the  icon.

c. Select **Group > Delete Inner Group**.

2.

To view the volume details at a specific time interval, click in the **Start time** column, and then click the  icon.

3. In the **Filter** dialog box, click **Select Values**, and then select the specific date and time from the drop-down list.

The volume details for the selected time range are displayed.

## Customizing the Volume Transfer Status (Historical) report to view volumes grouped by time of occurrence

You can customize the Volume Transfer Status (Historical) report to display the list of volumes grouped by time of occurrence between two dates.

### About this task

You can also perform this task by going to the Reports page and clicking **Run Report** for the appropriate report.

### Steps

1. Remove grouping by cluster:

a. In the column that has to be ungrouped, click the  icon.

b. Select **Group > Delete Inner Group**.

2.

In the **Start time** column, open the **Filter** dialog box by clicking the  icon.

3. From the **Condition** drop-down list, select **Between**.

4. Click **Select Values**, and choose the **Date From** and **Date To** values.

5. Click **OK**.

## Customizing the Volume Transfer Status (Historical) report to view failed or successful volume transfers

You can customize the Volume Transfer Status (Historical) report to view the details of failed or successful volume transfers.

### About this task

You can also perform this task by going to the Reports page and clicking **Run Report** for the appropriate report.

## Steps

1. Remove grouping by cluster:
  - a. Select the column that you want to ungroup.
  - b. Click the  icon.
  - c. Select **Group** > **Delete Inner Group**.
2. To sort the volume transfers according to failure or success, click in the **Operational Result** column, and then click the  icon.
3. Select **Filter**.
4. In the **Filter** dialog box, click **Select Values**, and then select either **Success** or **Failure**.
