Considerations for using Chain of Custody verification for 7-Mode SnapLock volumes 1

Considerations for using Chain of Custody verification for 7-Mode SnapLock volumes

You should be aware of the considerations for using Chain of Custody verification for 7-Mode SnapLock volumes.

- The SnapLock Chain of Custody verification must be performed only if it is a requirement for the transition of SnapLock volumes.

You can perform the Chain of Custody verification for all or a subset of SnapLock volumes in the project.

- The SnapLock Chain of Custody verification can take a significant amount of time based on the number of files on the 7-Mode SnapLock volumes.
- The Chain of Custody verification is supported only for read/write 7-Mode SnapLock volumes

The Chain of Custody verification is not supported for read-only volumes.

- The Chain of Custody verification is not supported for SnapLock volumes containing files that have names with non-ASCII characters.
