statistics settings commands

statistics settings modify

Modify settings for the statistics commands

Availability: This command is available to *cluster* administrators at the *advanced* privilege level.

Description

This command modifies the settings for all of the *statistics* commands.

Parameters

[`-display-rates {true|false}`] - Display Rates

Specifies whether the *statistics* commands display rate counters in rates/second. The default is `true`.

[`-client-stats {enabled|disabled}`] - Collect Per-Client Statistics

Specifies whether *statistics* commands display per-client information. The default is `disabled`.

If you enable this setting, you might significantly impact system performance.

[`-counter-display-units {B|KB|MB|GB}`] - Counter Display Units

Specifies display units for the counters. The default setting is `MB`.

[`-display-count-exponent <integer>`] - Display Count Exponent

Specifies display exponent value for the counters representing counts. The default setting is `3` (thousand).

Examples

The following example sets the value of the `-display-rates` parameter to `false` :

```
cluster1::*> statistics settings modify -display-rates false
```

statistics settings show

Display settings for the statistics commands

Availability: This command is available to *cluster* administrators at the *advanced* privilege level.

Description

This command displays the current settings for all of the *statistics* commands.

Examples

The following example displays the current settings for all `statistics` commands:

```
cluster1::*> statistics settings show  
Display rate Counters in rate/sec: true
```

```
Counter Display: full  
Counter Display Units: MB  
Display Count Exponent: 3
```
