volume upgrade-tasks commands

volume upgrade-tasks run

Triggers the M-Host upgrade tasks for the volume

Availability: This command is available to *cluster* administrators at the *advanced* privilege level.

Description

The `volume upgrade-tasks run` command triggers the M-host upgrade tasks for the volume and sets the volume upgrade status.

Parameters

-vserver <vserver name> - Vserver where the volume is located (privilege: advanced)

This specifies the vservers on which the volume is located.

-volume <volume name> - Volume on which we are running triggering the upgrade (privilege: advanced)

This specifies the volume on which we have to trigger the upgrade-tasks.

Examples

The following example triggers upgrade-tasks on volume named vol1 on a vservers named vs0:

```
node::> volume upgrade-tasks run -vserver vs1 -volume vol1
```
