# appdm events

## appdm.l2 events

### appdm.l2.notifyfailed

#### Severity

ERROR

#### Description

This message occurs when the system fails to notify the host of an event.

#### Corrective Action

Verify the network connection between the host and the storage system to determine whether network communication is working correctly. If the condition persists, contact NetApp technical support.

#### Syslog Message

On Vserver %s, application component %s, failed to notify the host of event: %s with error %s.

#### Parameters

**vsUuid** (STRING): UUID of the Vserver that failed to notify the host.

**appCompUuid** (STRING): UUID of the application component.

**notificationMsg** (STRING): Description of the event.

**errorString** (STRING): Description of the failure.

## appdm.l2snap events

### appdm.l2snap.createfailed

#### Severity

ERROR

#### Description

This message occurs when the Snapshot(tm) copy create request between the storage system and the host experiences a failure.

#### Corrective Action

Verify the network connection between the host and the storage system to determine whether network communication is working correctly. If the condition persists, contact NetApp technical support.

#### Syslog Message

On Vserver %s, application %s, component %s, creating Snapshot copy %s failed: %s.

#### Parameters

**vsUuid** (STRING): UUID of the Vserver for which to perform the Snapshot copy create operation.

**appUuid** (STRING): UUID of the application.

**appCompUuid** (STRING): UUID of the application component.

**snapshotName** (STRING): Name of the Snapshot copy to be created.

**errorString** (STRING): Description of the failure.

## appdm.l2snap.deletefailed

### Severity

ERROR

### Description

This message occurs when the Snapshot(tm) copy delete request between the storage system and the host experiences a failure.

### Corrective Action

Verify the network connection between the host and the storage system to determine whether network communication is working correctly. If the condition persists, contact NetApp technical support.

### Syslog Message

On Vserver %s, application component %s, deleting Snapshot copy %s failed: %s.

### Parameters

**vsUuid** (STRING): UUID of the Vserver for which to perform the Snapshot copy delete operation.

**appCompUuid** (STRING): UUID of the application component.

**snapshotUuid** (STRING): UUID of the Snapshot copy to be deleted.

**errorString** (STRING): Description of the failure.

## appdm.l2snap.listfailed

### Severity

ERROR

### Description

This message occurs when the Snapshot(tm) copy list request between the storage system and the host experiences a failure.

### Corrective Action

Verify the network connection between the host and the storage system to determine whether network communication is working correctly. If the condition persists, contact NetApp technical support.

### Syslog Message

On Vserver %s, application component %s, listing Snapshot copy failed: %s.

### Parameters

**vsUuid** (STRING): UUID of the Vserver for which to perform the Snapshot copy list operation.

**appCompUuid** (STRING): UUID of the application component.

**errorString** (STRING): Description of the failure.
