iclink events

iclink.init events

iclink.init.error

Severity

ALERT

Description

This message occurs when the HA interconnect fails to initialize.

Corrective Action

Reboot the system. If the problem persists, run diagnostics on the memory in the node.

Syslog Message

(None).

Parameters

errorCode (INT): The internal error code.

iclink.probe events

iclink.probe.error

Severity

ALERT

Description

This message occurs when the system cannot detect a High Availability (HA) interconnect card, making HA communication inoperable.

Corrective Action

Verify that the High Availability interconnect card is present and operational on the system. If this message persists, disable and reenabling the link by using the (privilege: advanced) "system ha interconnect link off" and "system ha interconnect link on" commands.

Syslog Message

(None).

Parameters

errorCode (INT): Internal error code.
