mpt events

mpt.action events

mpt.action.reset.bus

Severity

NOTICE

Description

This message occurs when the system bus is reset in the message processing technology (MPT) adapter driver.

Corrective Action

(None).

Syslog Message

Bus reset on path %s for device status %s.

Parameters

path (STRING): Device path.

msg (STRING): Detail about device status.

mpt.action.reset.dev

Severity

NOTICE

Description

This message occurs when the system device is reset in the message processing technology (MPT) adapter driver.

Corrective Action

(None).

Syslog Message

Device reset on path %s for device status %s.

Parameters

path (STRING): Device path.

msg (STRING): Detail about device status.

mpt.bus events

mpt.bus.reg

Severity

NOTICE

Description

This message occurs when the message processing technology (MPT) adapter driver registration fails.

Corrective Action

(None).

Syslog Message

%s : Bus registration failed.

Parameters

mpt (STRING): MPT device name for which registration failed.

mpt.busreg events

mpt.busreg.phydisk.failed

Severity

ERROR

Description

This message occurs when physical disk bus registration fails in the message processing technology (MPT) adapter driver.

Corrective Action

Check whether the device is connected correctly.

Syslog Message

%s : Physical disk bus registration failed.

Parameters

mpt (STRING): MPT device name on the path that failed.

mpt.path events

mpt.path.failure

Severity

ERROR

Description

This message occurs when the system cannot allocate a path in the message processing technology (MPT) adapter driver.

Corrective Action

Check whether the device is connected correctly.

Syslog Message

%s : Unable to allocate path.

Parameters

mpt (STRING): MPT device name on the path that failed.

mpt.phydisk events

mpt.phydisk.path.failed

Severity

ERROR

Description

This message occurs when the system cannot allocate a physical disk path in the message processing technology (MPT) adapter driver.

Corrective Action

Check whether the device is connected correctly.

Syslog Message

%s : Unable to allocate physical disk path.

Parameters

mpt (STRING): MPT device name on the path that failed.

mpt.tmf events

mpt.tmf.req

Severity

NOTICE

Description

This message occurs when the system cannot allocate a SCSI Task Management Function (TMF) request in the message processing technology (MPT) adapter driver.

Corrective Action

(None).

Syslog Message

Unable to allocate dedicated TMF request for device %s.

Parameters

mpt (STRING): MPT device name.
