prov events

prov.rollback events

prov.rollback.fail.cmd

Severity

ERROR

Description

This message occurs when ONTAP® software cannot complete a rollback of a provisioning operation sequence that failed. Depending on the action that failed, objects might need to be created, deleted, or modified to bring the system back to a consistent state.

Corrective Action

Resolve the error and attempt the failed command again. If the problem persists, contact NetApp technical support to resolve the rollback failure. It is possible that other related rollback actions have also failed. Check for other 'prov.rollback.fail.*' messages with similar time stamps, and perform the suggested corrective actions in the same order that the messages occurred.

Syslog Message

Failed to roll back an action performed by the provisioning engine. Command: "%s". Reason: %s.

Parameters

failed_command (STRING): Command that failed.

error (STRING): Error that the provisioning engine encountered.

prov.rollback.fail.obj

Severity

ERROR

Description

This message occurs when ONTAP® software cannot complete a rollback of a provisioning operation sequence that failed. Depending on the action that failed, objects might need to be created, deleted, or modified to bring the system back to a consistent state.

Corrective Action

Contact NetApp technical support to resolve the rollback failure. It is possible that other related rollback actions have also failed. Check for other 'prov.rollback.fail.*' messages with similar time stamps, and perform the suggested corrective actions in the same order that the messages occurred.

Syslog Message

Failed to roll back an action performed by the provisioning engine. Action: "%s". Object: "%s". Fields: "%s". Reason: %s.

Parameters

action (STRING): Attempted action.

object (STRING): Type of object.

fields (STRING): Fields of the object.

error (STRING): Error that the provisioning engine encountered.

prov.rollback.fail.rest

Severity

ERROR

Description

This message occurs when ONTAP® software cannot complete a rollback of a provisioning operation sequence that failed. Depending on the action that failed, objects might need to be created, deleted, or modified to bring the system back to a consistent state.

Corrective Action

Resolve the error and attempt the failed REST API again. If the problem persists, contact NetApp technical support to resolve the rollback failure. It is possible that other related rollback actions have also failed. Check for other 'prov.rollback.fail.*' messages with similar time stamps, and perform the suggested corrective actions in the same order that the messages occurred.

Syslog Message

Failed to roll back an action performed by the provisioning engine. API: curl -X %s 'https://<mgmt-ip>%s' -H 'accept: application/hal+json' -d '%s' Reason: %s.

Parameters

failed_uri (STRING): REST API resource that failed.

failed_body (STRING): REST API JSON body that failed.

failed_method (STRING): REST API method that failed.

error (STRING): Error that the provisioning engine encountered.
