# ndmp events

## ndmp.ctrl events

### ndmp.ctrl.on.e0m

#### Severity

ALERT

#### Description

This message occurs when the IP address of the logical interface (LIF) that hosts the NDMP control connection is hosted on maintenance port "e0M". This port does not provide sufficient bandwidth for NDMP.

#### Corrective Action

Ensure that the LIF is moved out of port "e0M" and hosted on a high bandwidth port, or use a LIF hosted on a high bandwidth port for the control connection.

#### Syslog Message

NDMP control connection is established on "%s" which is hosted on port "%s". This is a low bandwidth port and might impact performance.

#### Parameters

**lif\_addr** (STRING): Local control connection IP address.

**lif\_port** (STRING): Port on which the control connection IP address is hosted.

## ndmp.data events

### ndmp.data.on.e0m

#### Severity

ALERT

#### Description

This message occurs when the IP address of the logical interface (LIF) that hosts the NDMP data connection is hosted on maintenance port "e0M". This port does not provide sufficient bandwidth for NDMP.

#### Corrective Action

Ensure that the LIF is moved out of port "e0M" and hosted on a high bandwidth port, or create a new LIF hosted on a high bandwidth port which NDMP can use for the data connection.

#### Syslog Message

NDMP data connection is established on "%s" which is hosted on port "%s". This is a low bandwidth port and might impact performance.

#### Parameters

**lif\_addr** (STRING): Local data connection IP address.

**lif\_port** (STRING): Port on which the data connection IP address is hosted.

# ndmp.fail events

## ndmp.fail.log

### Severity

ERROR

### Description

This event is generated when there is an error in NDMP

### Corrective Action

(None).

### Syslog Message

Error message: %s

### Parameters

**Error\_message** (STRING): The error is hinted

# ndmp.max events

## ndmp.max.warning

### Severity

NOTICE

### Description

This message occurs when the maximum number of NDMP sessions has been reached.

### Corrective Action

(None).

### Syslog Message

Cannot accept new requests because the NDMP connection limit has been reached.

### Parameters

(None).

# ndmp.password events

## ndmp.password.warning

### Severity

ERROR

### Description

This message occurs on NDMP service startup, when the password for the NDMP user account is still the default password.

**Corrective Action**

Use the 'ndmpd password' command to change the default password.

**Syslog Message**

The NDMP user account has the default password set. Use the 'ndmp password' command to change the default password.

**Parameters**

(None).
