# auto events

## auto.cds events

### auto.cds.feature.disable.failed

#### Severity

INFORMATIONAL

#### Description

This message occurs during upgrade to Data ONTAP® 9.11.1 or later, when volume efficiency inactive data compression scan disablement failed on the existing compatible volumes.

#### Corrective Action

Manually try disabling the inline Volume Efficiency Inactive data compression on the volume using the "volume efficiency inactive-data-compression" command.

#### Syslog Message

Volume Inactive Data Compression disablement failed on Volume %s of Vserver %s.

#### Parameters

**volume** (STRING): Volume name.

**vserver** (STRING): Vserver name.

**reason** (STRING): Reason for failure.

### auto.cds.feature.disable.success

#### Severity

INFORMATIONAL

#### Description

This message occurs during upgrade to Data ONTAP® 9.11.1 or later, when volume efficiency inactive data compression scan is disabled on the existing compatible volumes.

#### Corrective Action

(None).

#### Syslog Message

Volume Inactive Data Compression disabled on Volume %s of Vserver %s.

#### Parameters

**volume** (STRING): Volume name.

**vserver** (STRING): Vserver name.

## auto.policy events

### auto.policy.feature.enable

**Severity**

NOTICE

**Description**

This message occurs during upgrade to Data ONTAP® 9.3 or later, when we start enabling the "auto" efficiency policy on the existing compatible volumes on All-Flash Optimized nodes in the background.

**Corrective Action**

(None).

**Syslog Message**

Volume efficiency features will be enabled on Volumes of All-Flash Optimized nodes in the Cluster.

**Parameters**

(None).

**auto.policy.feature.enable.done****Severity**

NOTICE

**Description**

This message occurs during upgrade to Data ONTAP® 9.3 or later, when we have completed enabling the "auto" efficiency policy on the existing compatible volumes.

**Corrective Action**

(None).

**Syslog Message**

Volume efficiency features were enabled on Volumes of All-Flash Optimized nodes in the Cluster.

**Parameters**

(None).

**auto.policy.feature.enable.fail****Severity**

INFORMATIONAL

**Description**

This message occurs during upgrade to Data ONTAP® 9.3 or later, when we fail to enable the "auto" efficiency policy on the existing compatible volume on All-Flash Optimized nodes.

**Corrective Action**

Manually try enabling the inline Volume Efficiency features on the volume using the "volume efficiency modify" command.

**Syslog Message**

Could not enable Volume Efficiency features for Volume %s of vserver %s.%s

## Parameters

**volume** (STRING): Volume name.  
**vserver** (STRING): Vserver name.  
**reason** (STRING): Reason for failure.

## auto.policy.feature.enabled

### Severity

INFORMATIONAL

### Description

This message occurs during upgrade to Data ONTAP® 9.3 or later, when we enable the "auto" efficiency policy on the existing compatible volume on All-Flash Optimized nodes.

### Corrective Action

(None).

### Syslog Message

Volume Efficiency features enabled on Volume %s of Vserver %s.

## Parameters

**volume** (STRING): Volume name.  
**vserver** (STRING): Vserver name.

## auto.update.events

## auto.update.action

### Severity

NOTICE

### Description

This message occurs when an action is applied to an automatic update request. This step requires input from the customer or a pre-configured default setting.

### Corrective Action

(None).

### Syslog Message

Automatic update: Applied the action "%s" to package: %s.

## Parameters

**action** (STRING): Action selected for the automatic update request. Possible actions are "install", "schedule", or "dismiss".  
**package\_description** (STRING): Information about the package.  
**package\_id** (STRING): Unique identifier for the package.

## auto.update.eula.accepted

**Severity**

NOTICE

**Description**

This message occurs when the customer has accepted the End User License Agreement (EULA). This is required before the Automatic update feature is enabled.

**Corrective Action**

(None).

**Syslog Message**

Automatic update: End User License Agreement accepted by "%s".

**Parameters**

**user** (STRING): Name of the user account that accepted the EULA.

**auto.update.eula.reset****Severity**

NOTICE

**Description**

This message occurs when the Automatic update feature is disabled and the End User License Agreement (EULA) is no longer considered accepted.

**Corrective Action**

(None).

**Syslog Message**

Automatic update: Feature has been disabled by "%s".

**Parameters**

**user** (STRING): Name of the user account that disabled the EULA.

**auto.update.expired****Severity**

NOTICE

**Description**

This message occurs when an automatic update request has not been acted upon before the request expiration date.

**Corrective Action**

(None).

**Syslog Message**

Automatic update: Request expired on %s for package: %s.

**Parameters**

**expired\_date\_time** (STRING): Date and time when the request expired.

**package\_description** (STRING): Information about the package.  
**package\_id** (STRING): Unique identifier for the package.

## **auto.update.failure**

### **Severity**

ERROR

### **Description**

This message occurs when an automatic update has failed to complete.

### **Corrective Action**

Fix the issues causing the failure and retry the automatic update. If the issue persists, contact NetApp technical support.

### **Syslog Message**

Automatic update: Failed update for package: %s. Error: %s.

### **Parameters**

**package\_description** (STRING): Information about the package.  
**error\_msg** (STRING): String containing details regarding the cause of the failure.  
**package\_id** (STRING): Unique identifier for the package.  
**stage** (STRING): Stage at which the update failed.

## **auto.update.received**

### **Severity**

NOTICE

### **Description**

This message occurs when the automatic update information is received from the AutoSupport OnDemand server.

### **Corrective Action**

(None).

### **Syslog Message**

Automatic update: Received update for package: %s.

### **Parameters**

**package\_description** (STRING): Information about the package.  
**package\_id** (STRING): Unique identifier for the package.

## **auto.update.retracted**

### **Severity**

NOTICE

### **Description**

This message occurs when an automatic update request has been superseded, retracted or otherwise considered unnecessary.

**Corrective Action**

(None).

**Syslog Message**

Automatic update: Request retracted for package: %s.

**Parameters**

**package\_description** (STRING): Information about the package.

**package\_id** (STRING): Unique identifier for the package.

**auto.update.success****Severity**

NOTICE

**Description**

This message occurs when an automatic update has completed successfully.

**Corrective Action**

(None).

**Syslog Message**

Automatic update: Successfully updated package: %s.

**Parameters**

**package\_description** (STRING): Information about the package.

**package\_id** (STRING): Unique identifier for the package.
