## fabricpool.cloud events

### fabricpool.cloud.subscription.added

**Severity**

NOTICE

**Description**

This message occurs when a cloud subscription license for FabricPools has been added.

**Corrective Action**

(None).

**Syslog Message**

A cloud subscription license for FabricPools has been added for license type %s. Cluster id: %s.

**Parameters**

**license\_type** (STRING): The type of license that the subscription is added for.

**cluster\_uuid** (STRING): UUID of the cluster.

### fabricpool.cloud.subscription.removed

**Severity**

NOTICE

**Description**

This message occurs when a cloud subscription license for FabricPools has been removed.

**Corrective Action**

(None).

**Syslog Message**

A cloud subscription license for FabricPools has been removed for license type %s. Cluster id: %s.

**Parameters**

**license\_type** (STRING): The type of license that the subscription was removed for.

**cluster\_uuid** (STRING): UUID of the cluster.

## fabricpool.full events

### fabricpool.full

**Severity**

ERROR

## Description

This message occurs when the total, cluster-wide FabricPool space usage of object stores from capacity-licensed providers has reached the license limit.

## Corrective Action

To find the percentage of the licensed capacity used by each FabricPool, use the "storage aggregate object-store show-space" command. To create more space, delete Snapshot(tm) copies from volumes with the tiering policy "snapshot" or "backup" by using the "volume snapshot delete" command. To increase the licensed capacity, install a new license on the cluster.

## Syslog Message

Total, cluster-wide FabricPool space usage of object stores from capacity-licensed providers has reached the licensed limit. Cluster ID: %s. Current usage: %s, licensed capacity: %s.

## Parameters

**cluster\_uuid** (STRING): UUID of the cluster.

**used\_capacity** (STRING): Total usage of capacity-licensed object stores.

**licensed\_capacity** (STRING): FabricPool licensed capacity.

# fabricpool.lost events

## fabricpool.lost.contact.scu

### Severity

ALERT

### Description

This message occurs when ONTAP has lost contact with the Service Control Unit used with cloud subscription licenses.

### Corrective Action

Ensure that the Service Control Unit is running and Ontap should have connectivity to it.

### Syslog Message

ONTAP has lost contact with the service control unit for the license of type %s. Cluster ID: %s.

### Parameters

**license\_type** (STRING): The type of license which has lost contact with the Service Control Unit.

**cluster\_uuid** (STRING): UUID of the cluster.

# fabricpool.nearly events

## fabricpool.nearly.full

### Severity

ERROR

### Description

This message occurs when the total, cluster-wide FabricPool space usage of object stores from capacity-licensed providers has nearly reached the license limit.

## Corrective Action

To find the percentage of the licensed capacity used by each FabricPool, use the "storage aggregate object-store show-space" command. To create more space, delete Snapshot® copies from volumes with the tiering policy "snapshot" or "backup" by using the "volume snapshot delete" command. To increase the licensed capacity, install a new license on the cluster.

## Syslog Message

Total, cluster-wide FabricPool space usage of object stores from capacity-licensed providers has nearly reached the licensed limit. Cluster id: %s. Current usage: %s, licensed capacity: %s.

## Parameters

**cluster\_uuid** (STRING): UUID of the cluster.

**used\_capacity** (STRING): Total usage of capacity-licensed object stores.

**licensed\_capacity** (STRING): FabricPool licensed capacity.

# fabricpool.scu events

## fabricpool.scu.contacted

### Severity

NOTICE

### Description

This message occurs when contact has resumed between ONTAP and the Service Control Unit that is used with cloud subscription licenses.

### Corrective Action

(None).

### Syslog Message

Contact has resumed between ONTAP and the service control unit for the license of type %s. Cluster ID: %s.

### Parameters

**license\_type** (STRING): The type of license which has resumed contact with the Service Control Unit.

**cluster\_uuid** (STRING): UUID of the cluster.

# fabricpool.tiering events

## fabricpool.tiering.stopped.no.scu

### Severity

ALERT

### Description

This message occurs when ONTAP has stopped tiering data to the cloud tier because it has lost contact with the Service Control Unit used for one or more cloud subscription licenses.

### Corrective Action

Ensure that the Service Control Unit is running and ONTAP should have connectivity to it.

## **Syslog Message**

Ontap has stopped tiering data to the cloud tier because it lost contact with the Service Control Unit for the license of type %s. Cluster ID: %s.

## **Parameters**

**license\_type** (STRING): The type of license which has lost contact with the Service Control Unit.

**cluster\_uuid** (STRING): UUID of the cluster.
