root events

root.vol events

root.vol.cluster.autocreate

Severity

ERROR

Description

This message occurs when system creates a root volume automatically, after a cluster reboot occurred before root volume creation.

Corrective Action

Rename AUTOROOT volume to vol0 by running "vol rename -vserver vserver_name -volume AUTOROOT -newname vol0" command.

Syslog Message

No online root volume found on root aggregate %s. Automatically creating one.

Parameters

aggr (STRING): Root aggregate name.

root.vol.corrupt.autocreate

Severity

ALERT

Description

This message occurs when system creates a root volume because the original root volume is corrupted.

Corrective Action

Contact NetApp technical support to recover vol0.

Syslog Message

Root volume found corrupted on root aggregate %s. Automatically creating AUTOROOT volume.

Parameters

aggr (STRING): Root aggregate name.
