- Date and Time window 1

Date and time settings of a cluster

You can use System Manager to manage the date and time settings of a cluster.

Related information

[System administration](#)

Date and Time window

The Date and Time window enables you to view the current date and time settings for your storage system and to modify the settings when required.

Command buttons

- **Edit**

Opens the Edit Date and Time dialog box, which enables you to edit the time servers.

- **Refresh**

Updates the information in the window.

Details area

The details area displays information about the date, time, time zone, NTP service, and time servers for your storage system.
