Manage notifications 1

Manage notifications

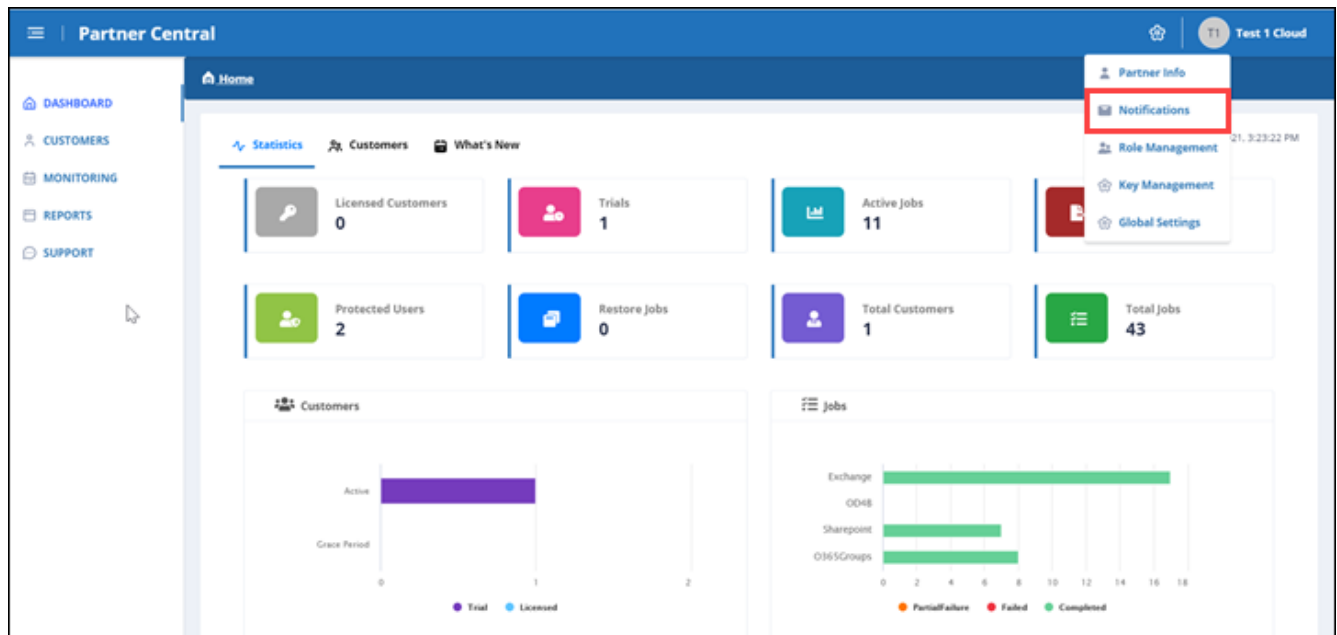

In SaaS Backup Partner Central, you can add, modify, and delete notifications for different users.

You can enable or disable the following notifications:

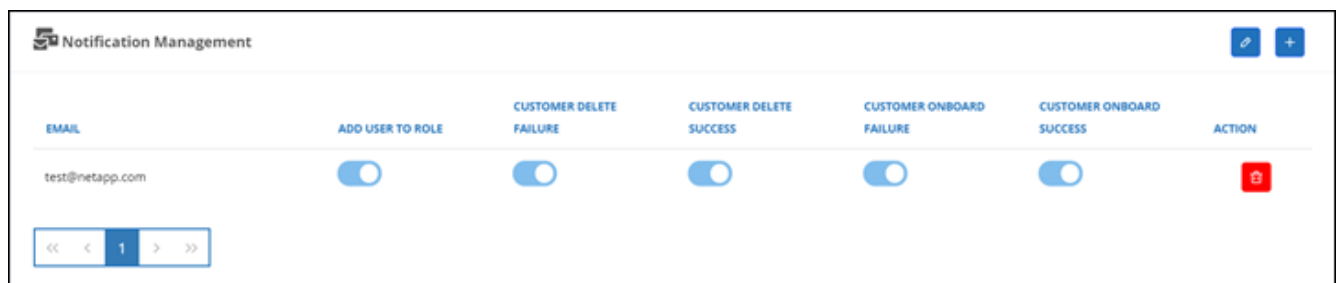

- Add user to role
- Customer delete success
- Customer onboard success
- Customer delete failure
- Customer onboard failure

Steps

1. From the dashboard, click .
2. Select **Notifications** from the dropdown menu.

3. In **Notification Management**, you can add, modify, and delete notifications.

- a. To add notifications, click  to add notifications to a user.

In **Add Notification**, enter the email address for the user. Select notifications you want to enable and

click **Add**.

The screenshot shows a modal dialog titled "Add Notification" overlaid on a "Notification Manager" interface. The dialog contains the following elements:

- An "Email" label above a text input field containing "Email Address".
- A section titled "Enable Notification" with five checkboxes, all of which are checked:
 - Add User To Role
 - Customer Delete Success
 - Customer Onboard Success
 - Customer Delete Failure
 - Customer Onboard Failure
- At the bottom right, there are two buttons: a red "CLOSE" button and a blue "ADD" button.

In the background, the "Notification Manager" interface is partially visible, showing a table with columns for "EMAIL", "ACTION", and "CUSTOMER ONBOARD SUCCESS". A toggle switch and a trash icon are also visible in the background.

b. To modify notifications, click .

c. To delete notifications, click .
