Manage settings

Manage notifications

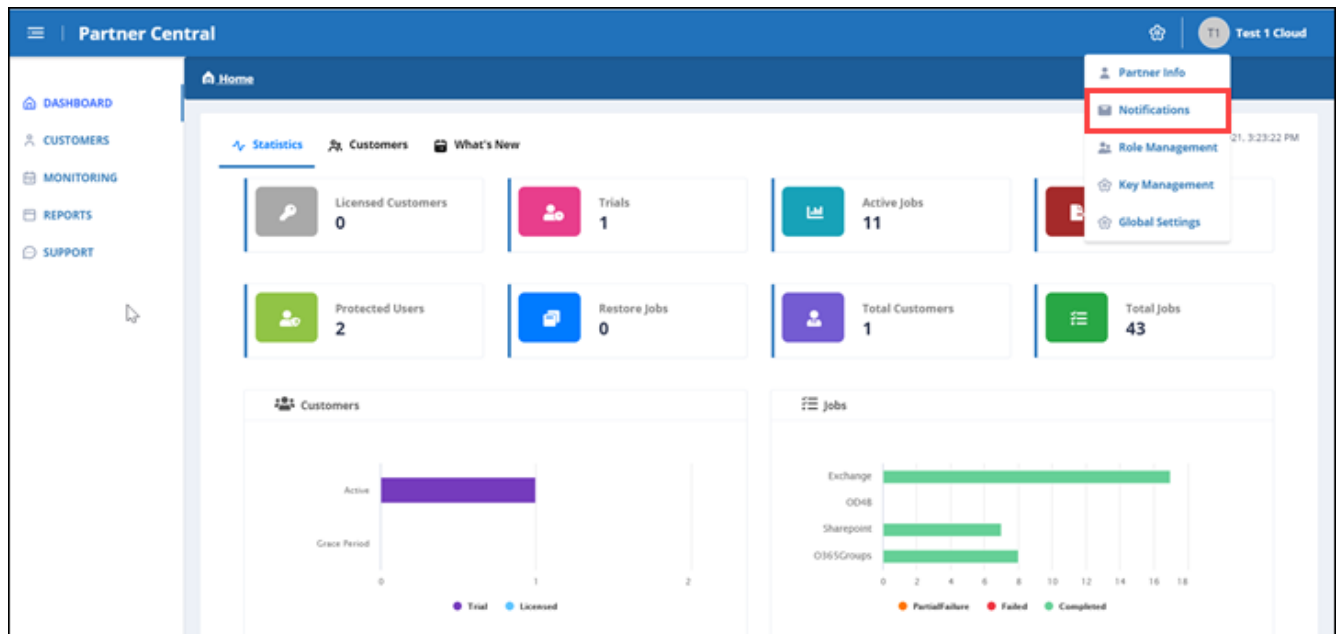

In SaaS Backup Partner Central, you can add, modify, and delete notifications for different users.

You can enable or disable the following notifications:

- Add user to role
- Customer delete success
- Customer onboard success
- Customer delete failure
- Customer onboard failure

Steps

1. From the dashboard, click .
2. Select **Notifications** from the dropdown menu.

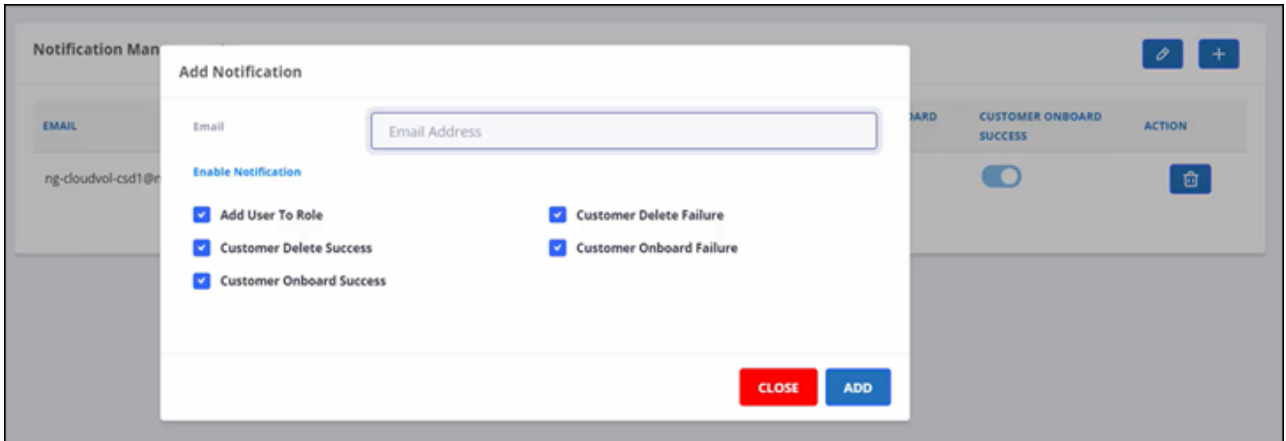

3. In **Notification Management**, you can add, modify, and delete notifications.

- a. To add notifications, click  to add notifications to a user.

In **Add Notification**, enter the email address for the user. Select notifications you want to enable and click **Add**.

- b. To modify notifications, click .

- c. To delete notifications, click .

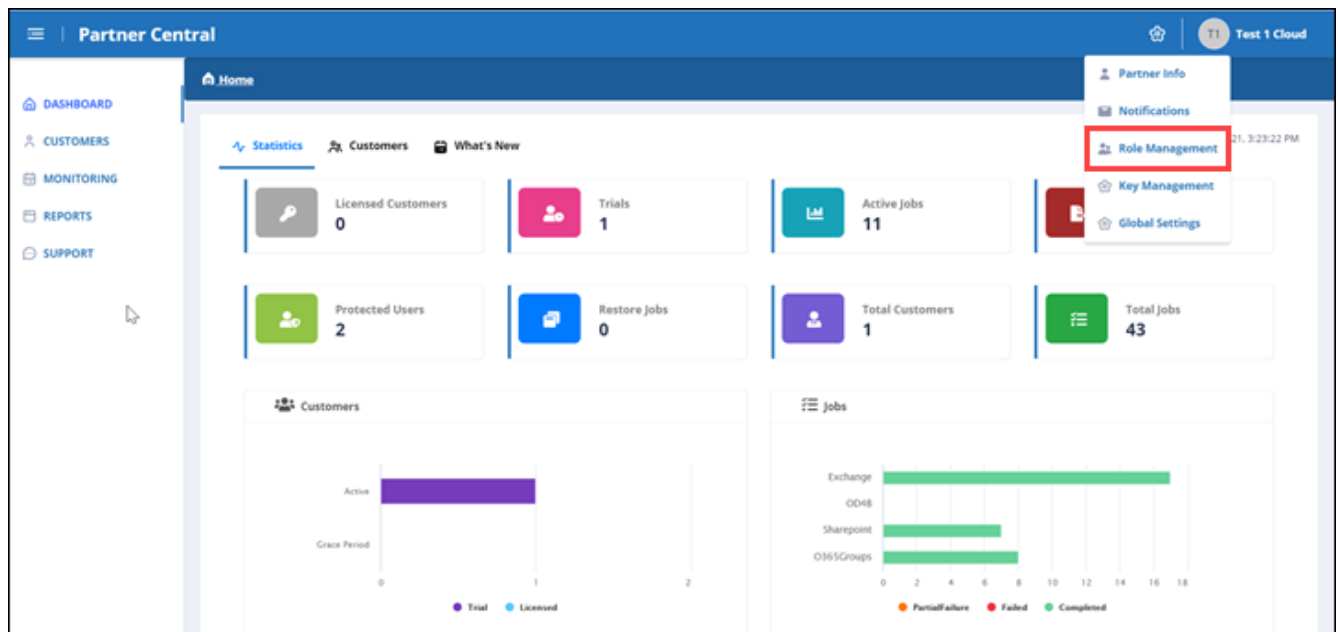

Manage roles

In SaaS Backup Partner Central, you can modify, add, and assign different user roles.

The default email in **Role Management** is the partner email.

Steps

1. From the dashboard, click .
2. Select **Role Management** from the dropdown menu.

3. In **Role Management**, you can add, modify, and delete roles.

Role Management						+
FIRST NAME	LAST NAME	E-MAIL	ROLE	STATUS	ACTION	
Test	Cloud2	ng-cloudvol-csd1@netapp.com	Global Partner Admin	Active		

4. To add a user, click .

In **Add User**, enter the requested information.

a. Select the role for the user.

- **Global Partner Admin:** Can create other global partners and has full control of all roles.
- **Full Admin:** Has full control of all roles except global partners.
- **Config Admin:** Can add and delete customers.

5. To modify a user's role, click .

6. To delete a user, click .

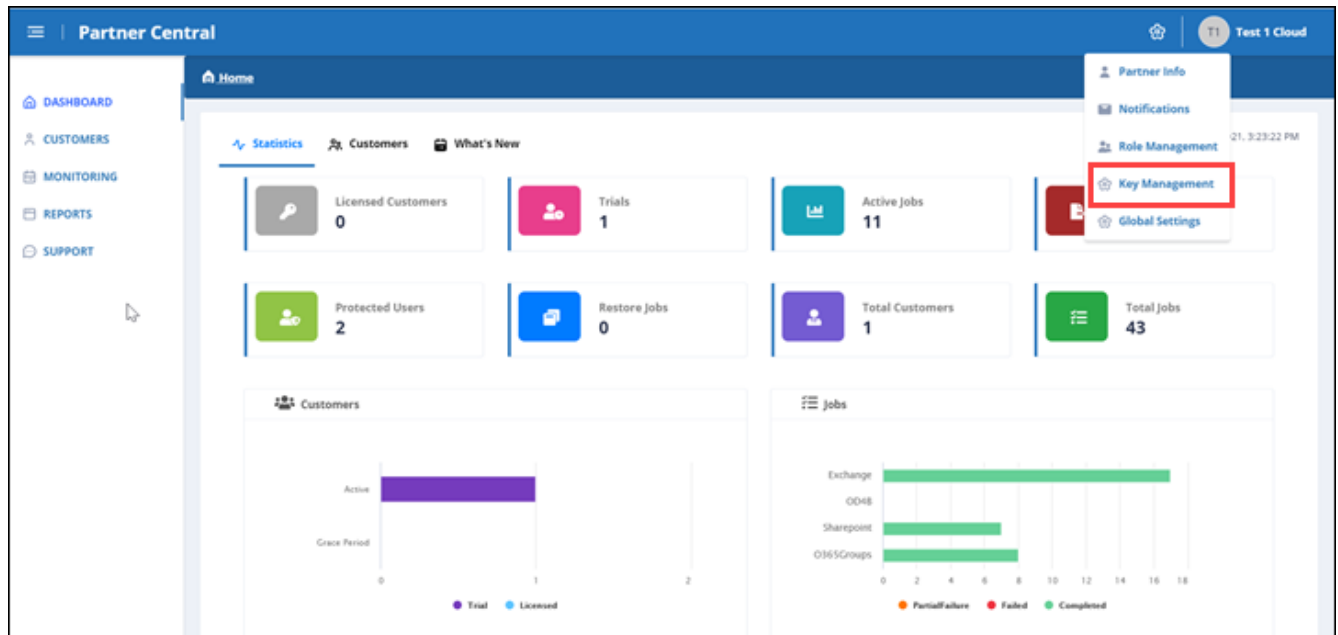

Manage Keys

You can add and manage keys for enhanced security in Partner Central from the **Key Management** setting. You can also find support for the PowerShell cmdlet interface.

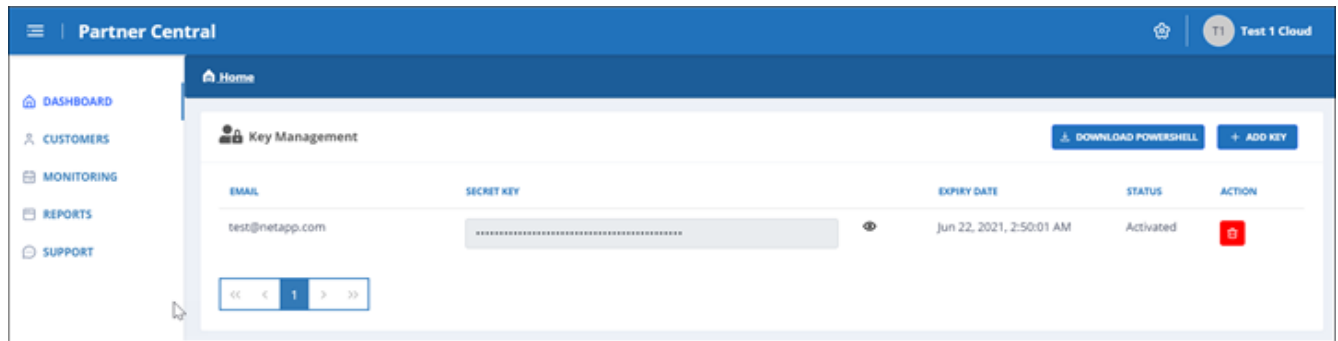

Add keys

Steps

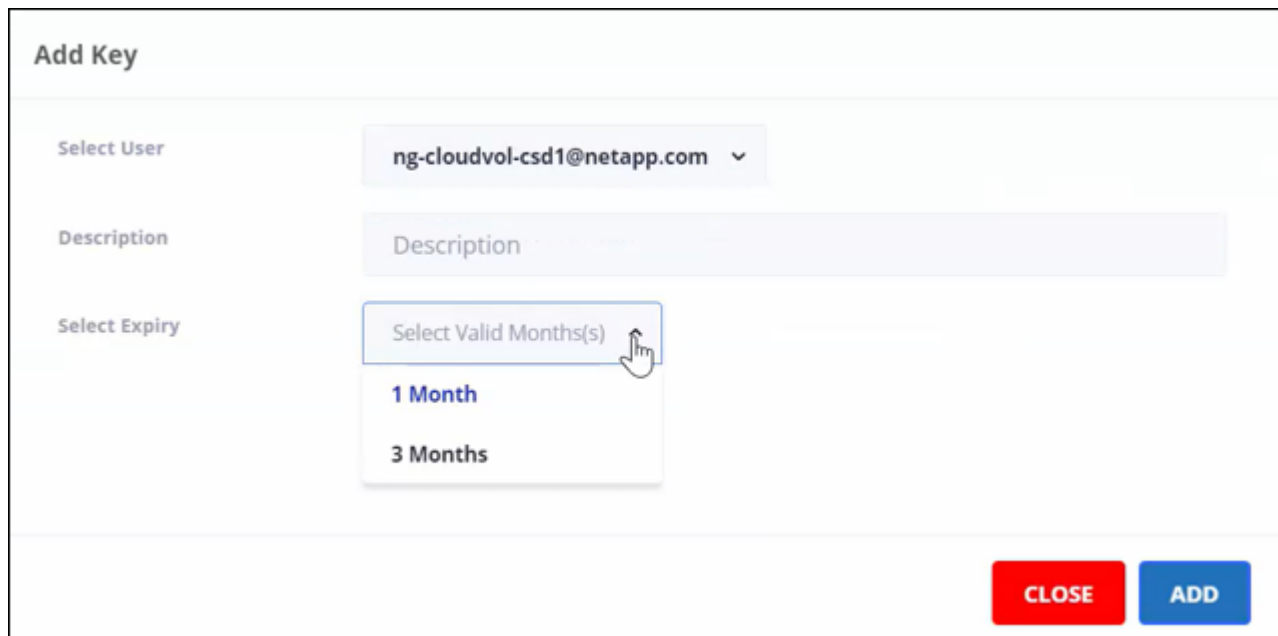

1. From the dashboard, click .
2. Select **Key Management** from the dropdown menu.

3. To add a key, click [+ ADD KEY](#).

4. In **Add Key**, do the following:

- a. Select the user.
- b. Add a description.
- c. Select expiry.
- d. Click **Add**.

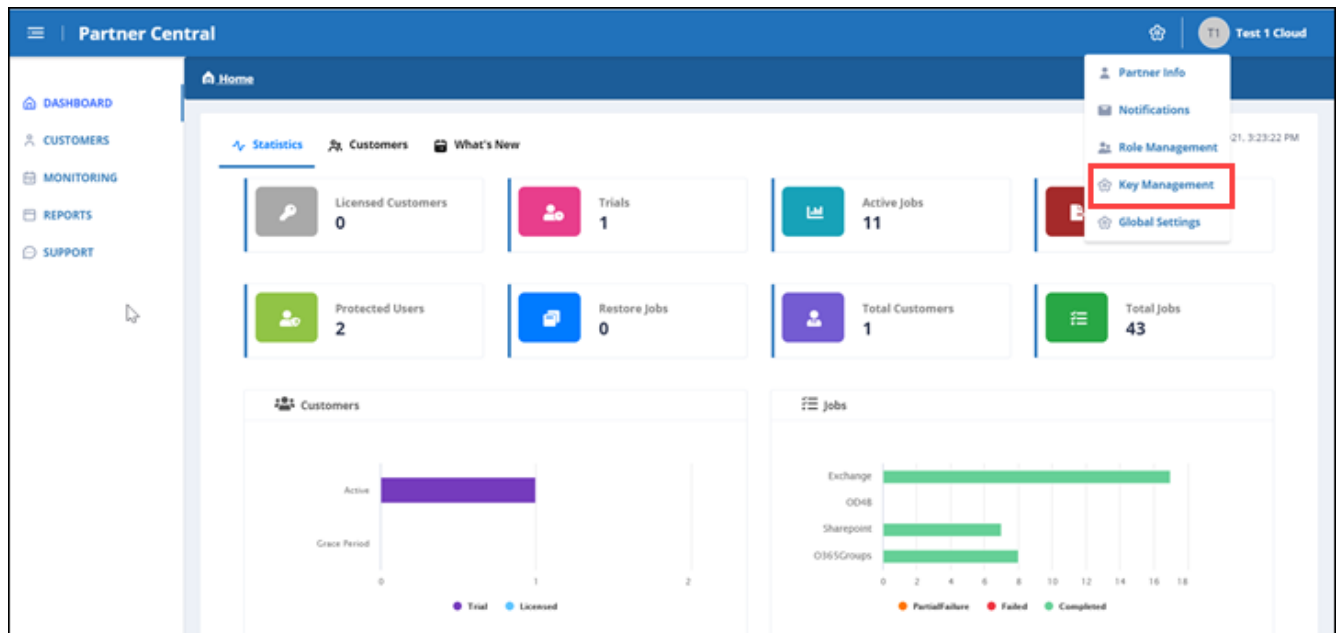

A box appears with the message “Successfully generated the key.”

5. Click  to show the unencrypted key and click  to hide the unencrypted key.

Download PowerShell

Steps

1. From the dashboard, click .
2. Select **Key Management** from the dropdown menu.

3. To download PowerShell, click  **DOWNLOAD POWERSHELL**.
4. Install the downloaded program.
5. After the program installation, double click the icon for **SaaS Backup PowerShell** on your desktop to start the PowerShell cmdlet.

For more information about using the NetApp SaaS Backup PowerShell module, refer to the [NetApp SaaS Backup PowerShell Guide \(TR-4873\)](#).
