Deleting backups 1

Deleting backups

You can delete backup copies of a configuration file.

1. From the main menu of the Snap Creator graphical user interface (GUI), select **Data > Backups**
2. From the Profiles and Configurations pane of the Backups tab, expand a profile and select a configuration file.
3. Select the backup that you want to delete and click **Delete**.

If the configuration file contains multiple Data ONTAP volumes, you must select the Snapshot copy that you want to delete on each of the Data ONTAP volumes.

4. Click **Yes** in the confirmation window.
