Deleting retention policies 1

Deleting retention policies

You can delete retention policies.

1. From the Snap Creator GUI main menu, select **Policy > Policy Management**.
2. From the **Policy Manager** tab, select a policy and click **Delete**.

If you try to delete a policy that is assigned to a configuration file, the GUI displays the following error message: Policy cannot be deleted since the policy name is applied to configuration. Use Detach policy and then delete the policy.

3. Click **Yes** in the confirmation window.

The policy is removed from the Policy Manager tab.
