Viewing job status and logs in the Job Monitor 1

Viewing job status and logs in the Job Monitor

The Snap Creator Job Monitor is a dashboard-like interface for Snap Creator jobs. You can use the Job Monitor to view job status and download logs.

The Job Monitor indicates job status as follows:

-  indicates a job in progress.
-  indicates a job that has completed successfully.
-  indicates a job that completed with errors.
-  indicates a job that failed.

1. In the Profiles and Configurations pane, select the configuration file and click **Management > Job Monitor** at the top of the Snap Creator Framework window.

The Job Monitor pane is displayed, where you can view job status.

2. Select a job, then click **Download Logs > Log_Type**, where Log_Type is one of the following:
 - **Out Logs** provide verbose-level information for a job.
 - **Debug Logs** provides verbose-level information plus information useful in debugging.
 - **GUI Logs** provides information about Snap Creator GUI actions. The GUI log is not specific to the job that is selected.
3. In the download dialog, click **Open** or **Save** as required.
