Request reports of the protection status from the dashboard 1

Request reports of the protection status from the dashboard

You can request protection details for resources managed by specific plug-ins using the Dashboard. Only data backups are considered for data protection summary.

Steps

1. In the left navigation pane, click **Dashboard**.
2. Locate the Latest Protection Summary tile in the Dashboard and use the pull-down menu to select a plug-in.

The Dashboard displays a donut chart for resources backed up to Primary storage and, if applicable to the plug-in, a donut chart for resources backed up to secondary storage.

Data protection reports are available only for specific plug-ins types. Specifying **All Plug-ins** is not supported.

3. Click the donut slice representing the status for which you want a report.

When you click the donut chart, you are redirected from Dashboard page to the Reports, and then to the Plug-in page. The report displays only status for the plug-in you selected. You can review the report or download it to your local system.

Redirection to the Reports page for SnapMirror donut chart and File-based SAP HANA backup is not supported.
