Removing a port set from SnapDrive 1

Removing a port set from SnapDrive

You can use the `snapdrive portset delete` command to delete a port set that is configured in SnapDrive.

Steps

1. Enter the following command on the host system:

```
snapdrive portset delete filename [filename...]
```

filename is the Vserver name on which the port set is configured.

```
snapdrive portset delete vs91  
Deleted portset configuration for appliance: vs91
```

The port set that is configured for SnapDrive is removed successfully.
