The smo system verify command

This command confirms that all the components of the environment required to run SnapManager are set up correctly.

Syntax

```
smo system verify  
\[ -quiet \| -verbose \]
```

Parameters

- **-quiet**

Displays only error messages on the console. The default is to display error and warning messages.

- **-verbose**

Displays error, warning, and informational messages on the console.

Example of the system verify command

The following example uses the smo system verify command.

```
