Viewing a list of clones

You can view a list of clones associated with a particular profile.

The list includes the following information about the clones in a profile:

- The ID for the clone
- Status of the clone operation
- Oracle SID for the clone
- Host on which the clone resides
- Label for the clone

If you specify the `-verbose` option, the output also shows the comments entered for the clone.

1. To display a list of all clones for a profile, enter the following command `smo clone list -profile profile_name [-quiet | -verbose]`
