The smo history operation-show command

This command enables you to view the history of a specific SnapManager operation associated with a profile.

Syntax

```
smo history operation-show
-profile profile
\{-label label \| -id id\}
\[-quiet \| -verbose\]
```

Parameters

- **-profile profile**

Specifies the name of the profile. This name can be up to 30 characters long and must be unique within the host.

- **-label label | -idid**

Specifies the SnapManager operation ID or label for which you want to view the history.

- **-quiet**

Displays only error messages on the console. The default is to display error and warning messages.

- **-verbose**

Displays error, warning, and informational messages on the console.

Example command

```
smo history operation-show -profile PROFILE1 -label backup1
-verbose
```
