The smo password reset command

You can run the password reset command to reset the password of a profile.

Syntax

```
smo password reset
-profile profile
\[-profile-password profile_password\]
\[-repository-hostadmin-password repository_hostadmin_password\]
[-quiet | -verbose]
```

Parameters

- **-profile profile**

Specifies the name of the profile for which you want to reset the password.

- **-profile-password profile_password**

Specifies the new password for the profile.

- **-repository-hostadmin-password admin_password**

Specifies the authorized user credential with local administrator privilege for the repository database.

- **-quiet**

Displays only error messages in the console. The default is to display error and warning messages.

- **-verbose**

Displays error, warning, and informational messages in the console.
