The smo operation list command

This command lists the summary information of all operations recorded against a specified profile.

Syntax

```
smo operation list
-profile profile_name
\[-delimiter character\]
\[-quiet \| -verbose\]
```

Parameters

- **-profile profile_name**

Specifies the name of the profile. This name can be up to 30 characters long and must be unique within the host.

- **-delimiter character**

(Optional) When this parameter is specified, the command lists each row on a separate line and the attributes in that row are separated by the character specified.

- **-quiet**

(Optional) Displays only error messages on the console. The default is to display error and warning messages.

- **-verbose**

(Optional) Displays error, warning, and informational messages on the console.

Example command

The following example lists the summary information of all the operations logged against the specified profile.

```
smo operation list -profile myprofile
```

Start Date	Status	Operation	ID	Type	Host
2007-07-16 16:03:57	SUCCESS	8abc01c813d0a1530113d0a15c5f0005 Profile Create	Host3
