Assigning backups with a specific retention class

DBAs can assign a specific retention class of hourly, daily, weekly, or monthly to backups. Assigning a specific retention class makes the backups performed under this change eligible for deletion.

1. To assign a specific backup retention class, enter this command:
`smo backup update -profileprofile_name {-labellabel [data | -archivelogs] | -idid | all} -retain [-hourly | -daily | -weekly | -monthly]`
