Table of Contents

- Start the SnapManager host server 1
- Verify the SnapManager host server status 1

Start the SnapManager host server

You can start the SnapManager server by using the Windows services.

Steps

1. Click **Start > Control Panel > Administrative Tools > Services**.
2. In the **Services** window, select NetAppSnapManager 3.3 forSAP.
3. You can start the server in one of three ways:
 - In the left panel, click **Start**.
 - Right-click NetAppSnapManager 3.3 forSAP and select **Start** from the drop-down menu.
 - Double-click NetAppSnapManager 3.3 forSAP and then in the Properties window, click **Start**.

Verify the SnapManager host server status

The server must be running for you to execute commands or initiate SnapManager operations. You must verify the status of the server before performing any operations.

Steps

1. In the Services window, select SnapManager 3.3 forSAP.
2. View the status in the Status column.
