Discover E-Series systems

Adding E-Series systems to the NetApp Console allows you to manage your E-Series systems from the Console and get a complete view of your data infrastructure across your hybrid multi-cloud environment.

Required NetApp Console role

Organization admin, Folder or project admin, Storage admin, or System health specialist. [Learn about NetApp Console access roles](#).

Before you begin

You need the following:

- A NetApp Console Agent installed in a cloud provider or on your premises, with network connectivity to the E-Series system. You must have the Organization admin role to install a Console agent. If you don't know if your organization has a Console agent, or if you need one created, contact your Console administrator. [Contact your Organization admin](#).
- The domain name or IP address of the storage system controller.
- Admin credentials for the E-Series system.

Steps

1. From the navigation menu, select **Storage > Management**.
2. From the **Systems** page, select **Add** and select **On-Premises**.
3. Next to **E-Series**, select **Discover**.
4. On the *E-Series Cluster Details* page, enter the domain name or IP address of the storage system controller, admin credentials for the system, and then select **Add**.
