Release notes

What's new

Learn what's new with Google Cloud NetApp Volumes support in NetApp Console.

27 November 2025

Google Cloud Platform credentials changes

As customers setup and authorize more Google Cloud NetApp Volumes systems, how credentials are managed have changed.

NetApp Volumes systems credentials are now stored on a Google cloud backend, such as Cloud Key Management service or similar, and service account impersonation credentials are used when creating a new system.

06 October 2025

BlueXP is now NetApp Console

The NetApp Console, built on the enhanced and restructured BlueXP foundation, provides centralized management of NetApp storage and NetApp Data Services across on-premises and cloud environments at enterprise grade—delivering real-time insights, faster workflows, and simplified administration, that is highly secure and compliant.

For details on what has changed, see the [NetApp Console release notes](#).

21 July 2025

Support for Google Cloud NetApp Volumes in BlueXP

You can now manage Google Cloud NetApp Volumes directly from BlueXP:

- Add a working environment.
- View volumes.
- Remove working environments.
